

Joint Northern Wisconsin Local and Tribal Public Health Message Urging Wisconsonites to Continue Following Precautions and Get Vaccinated

Cases are Increasing in Some Border Counties

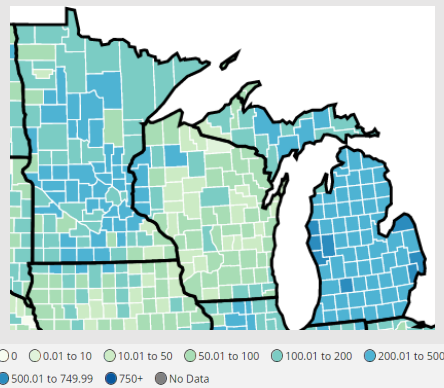

As of April 27, 2021

<https://www.dhs.wisconsin.gov/covid-19/local.htm>

COVID-19 Cases Reported per 100,000 Population

As of April 24, 2021

<https://covid.cdc.gov/covid-data-tracker/#county-view>

Both Michigan and Minnesota report growing COVID-19 variant cases.*

Why Do Variants Matter?

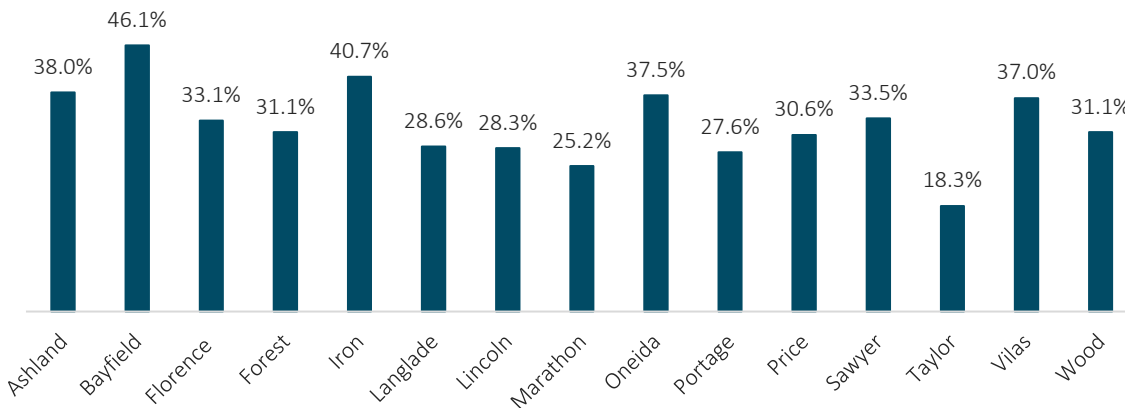

Variants have mutations that cause the virus to act differently.

This may include:

- Causing more severe cases
- Spreading more easily
- Requiring different treatments
- Decreasing vaccine effectiveness

Percent of Population 16+ with Completed Vaccination Series

1 dose of Johnson and Johnson or 2 doses of Moderna or Pfizer

We are not halfway to 80% of the population being vaccinated.

What Can You Do?

Get Vaccinated

Wear a Mask

Wash Your Hands

Avoid Large Gatherings

A joint message from....
