

## **Amnesty Program**

This is Dave from Vilas County Zoning & Planning with a message about the Vilas County Recycling Amnesty Program.

Get a new stove or fridge recently? Upgrade the new newest, biggest, highest definition TV out there? Upgrade that slow, ancient computer? If so, don't just throw out your old tires, appliances, or electronics. Recycle them!

Recycling old appliances and electronics helps keep our landfills from filling up and our countryside clean. Vilas County Zoning & Planning wants to help offset the costs of this recycling. Stop by your local town or city hall, or the Zoning Office, to get a voucher good for \$15 towards the recycling of tires, appliances, or electronics at local recyclers. Limit one per household per year.
